Matopat

Your safety – our concern

Matopat is one of the main brands of the TZMO Group, a major European producer of medical devices. The TZMO company itself was established in the year 1951 and at this moment we proudly look back at 70 years of experience and development that our Customers and Partners benefit from.

Apart from numerous specialist products dedicated for hospitals, operating theatres, ambulatories etc. **Matopat** has also an offer for the consumer market. Today our wide range of products includes over 10.000 items.

Our goal as a medical device manufacturer is to provide products and services that meet Customer expectations as well as legal and regulatory requirements.

The confirmation of meeting Customer needs, legal requirements, and ensuring the safety of our products and services is our Integrated Management System, certified according to ISO 9001, ISO 13485, and ISO 14001 standards.

Our medical devices bear the CE marking, which indicates their compliance with the requirements set forth in the relevant European Union regulations. The CE marking and the issued EU Declaration of Conformity confirm that our products are safe, effective, and do not pose a risk to the health and safety of patients, users, or other individuals.

The continuous technological progress and competences of our staff enable the promotion of new health care concepts, which fulfill restrictive needs of the medical market.

In the year 2001 a Specialist Hospital **Matopat** was opened, which not only offers highly professional medical services, but is also a training centre. Thereby we made a big step in the research and development field.

In the year 2023 an online portal the **Medical Practise Center** was launched. The aim of this website is to provide access to the latest state-of-the-art medical and product knowledge. It is a communication hub for medical professionals from around the world. It is also a space where health care professionals can exchange experiences, ideas and conclusions about new medical methods, techniques and technologies.

The combination of tradition and state-of-the art solutions makes **Matopat** a perfect and reliable partner.

56 companies
in 18 countries
